Extrusion Machines and Services for Advancing your Materials

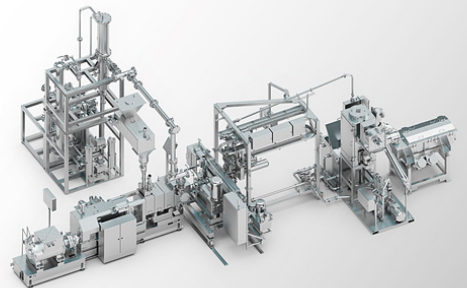

CXE 70HO

CPM's compounding solutions have been developed through decades of focus on customer requirements and processes. All CPM co-rotating extruders are of the highest level of quality and reliability, designed with maximum flexibility, performance, serviceability and cost effectiveness in mind.

Benefits

- Customized machine, configured to your requirements and production facility
- Twin- and multi-screw models with High Output (HO) and smart High Output (sHO)
- Complete and modular compounding system design and installation
- Full line of upstream and downstream equipment available
- State-of-the-art services to keep your equipment optimized

Let Us Test it **For You**
Our innovation labs are equipped to assist in developing and optimizing your processes.

CPM Holdings, Inc. is a diversified leading global supplier of process equipment and engineered technologies that sustainably feed, fuel, and build a better world.
