BLISS

HM SERIES

The HM Series Hammermills are designed for the most demanding operations and are the ultimate in grinding equipment. These rugged, high-efficiency hammermills feature high-density frames that are designed to minimize noise and vibration. They also feature the air-swept teardrop design and our patented regrind chamber. HM Series Hammermills have one-piece, full-access doors mounted on unique pivoting arms to allow the doors to move completely out of the way during service. Talk to your CPM Bliss Hammermill supplier to learn about the highest-quality size-reduction equipment in the world.

From the food you eat to the fuels you require, CPM plays an important role in building a better world. Our experienced team and family of trusted brands are working together to make our planet a better place to live.
