Multi Conveyor MCD Dryer

Proven uniform drying with precise climate control. This gentle drying action prevents pre-puffing of cereals, eliminates surface checking breakages and uniformly dries many products. Foods are thoroughly dried, even in the center, and condensation in bins or bags is eliminated.

Benefits

- Up to seven conveyors within the smallest floor space for most economical, efficient and comprehensive drying.
- Short-pitched conveyors reduce product drop within engineered transfers, minimizing product damage, breakages, sticking and agglomeration.
- Sanitary fully welded sloped drained floors no horizontal surface design, reduces accumulation of debris, dust, fines and product, improving sanitization and cleaning.
- Easy to use intuitive smart PLC control process parameters.
- Energy efficient fully insulated dryer, with air recirculation and heat recovery options.

MCD DRYER

CPM Holdings, Inc. is a diversified leading global supplier of process equipment and engineered technologies that sustainably feed, fuel, and build a better world.
