

Trusted Food Processing for a Well-Fed World

Triple Pass Dryer
for the Extruded
Snack Industry

TRIPLE PASS DRYER

Introducing the Triple Pass Dryer, designed to elevate your production process. Increase your ROI by maximizing energy efficiency and reducing operational costs, while boosting productivity with faster, more consistent drying cycles.

Enhance your process with precise moisture control for a consistent product every time, while reducing energy consumption and meeting your sustainability goals. Proven to be snack industry's most reliable and efficient machine across Europe for decades, the Triple Pass Dryer is now available worldwide.

- **Sustainable Focused:** The Triple Pass offers alternative power sources with gas, electric and steam options.
- **Easily Retrofittable:** Machines built from 2018 and on are all retrofittable to alternate their heat sources with no modifications necessary.
- **Small Footprint:** Maximize capacity and optimize your floor space with the Triple Pass' smaller profile. Sized and designed to meet most common extruder outputs.
- **Plug and Play:** The Triple Pass is fully tested and proven to succeed before arrival so that you can start producing faster.
- **Hygienically Engineered:** Food safety is a top priority. The Triple Pass is designed to be easy to clean and accessible for maintenance.
- **Testing Lab:** Backed by Wolverine Proctor's testing lab, have full confidence your process thrives with the Triple Pass.
- **Proven:** From emerging markets and startups to the largest snack providers, the Triple Pass has been the center line of choice for the past four decades in the snack industry.

CPM Holdings, Inc. is a diversified leading global supplier of process equipment and engineered technologies that sustainably feed, fuel, and build a better world.
