

CPM **Pentagon x2™** **Hammer**

ONECPM.COM

The Pentagon Line features a patented, weight-reducing design that lowers energy costs and offers the convenience of a complete, compatible system with select mill models.

40% MORE STRENGTH

- Dual grind points
- Variations in Tungsten style caps
- Faster material clean out to help reduce screen bed depth

*** Not available in a cluster

Minimum wear,
maximum
destruction

Powered by
Holeformance

- Elliptical Hole for 100% clean out and perfect rod contact
- Faster installation and removal

CPM **Pentagon™ Hammer**

Features & Benefits

● **Wider End**

- Improved strength around hole – Reduces risk of failure and breakage
- Minimized rod wear – Helps prevent grooving and surface damage over time
- No notching needed – Reduces complexity and potential weak spots
- Fewer spacers required – Saves time during installation and replacement
- Reduced downtime – Less maintenance to keep operations running smoothly

● **STC Tungsten Coating**

- Applied uniformly – Ensures even wear and contributes to longer service life
- Bonded to base metal – Ensures durability and resistance to separation
- Custom application – Hard facing is applied only where needed, reducing unnecessary cost

● **Heat-Treated**

- Harder material – Increases durability and impact resistance
- Enhanced strength – Contributes to longer life and improved performance under stress

● **Complete System**

- Single part number – Easy to order and saves management time
- Packaged as a complete kit – Easy storage and handling
- Engineered for your specific hammer mill model – Ensures a precise fit
- Color-coded parts with installation chart – Speeds up installation and keeps everything organized

From the food you and your animals eat to the fuels you require, CPM plays an important role in building a better world. Our experienced team and family of trusted brands are working together to make our planet a better place to live.
