

Pro-Roll™ Grease for Pellet Mills

ONECPM.COM

Pro-Roll™ Food Grade Grease is designed specifically for Pellet Mills, offering exceptional load-carrying capacity, increased protection against operator error, and a proven 72% reduction in roll failure for unmatched reliability and performance.

Pro-Roll™ Grease for Pellet Mills

Pro-Roll™ Food Grade Grease is specially formulated with an overbased calcium sulfonate thickener and approved additives—such as antioxidants, extreme pressure agents, and anti-wear compounds—to enhance pellet mill roll shell performance. It consistently outperforms other industrial food-grade greases in key areas like viscosity index and worked penetration.

Pro-Roll™ is NSF H1 approved, making it safe for applications with incidental food contact.

Grease Specifications

Color	Beige
Texture	Smooth Tacky
NLGI Grade	2
Worked Penetration	265-295
Change in Penetration After 100,000 strokes	23
Roll Stability / % Change	3.2
Drop Point (°F)	>540 (>282)
Viscosity at 40 cSt	180
Viscosity at 100 cSt	16.6
Viscosity Index	98
Density lb/gal at 60°F (15.5°C)	8.4786
Specific Gravity g/cc at 60°F (15.5°C)	1.0181
4-Ball EP Load (kg)	800
4-Ball Wear, Scar Width (lbs)	0.054
Timken OK Load (lbs)	65
Water Washout at 175°F, % wt	1
Copper Corrosion	Pass (1B)
Rust Test	Pass

Lab & Field-Tested

10% Thicker at Operating Temps
(ASTM D 445)

55% More Spalling Resistance
(ASTM D 2596)

50% Less Bearing Friction
(ASTM D 2509)

4x Less Run-Out from Moisture &
Steam (ASTM D 1264)

10% Higher Oil Separation Point
(ASTM D 2265)

Part Numbers

Drum (400 lbs)	125147
Keg (120 lbs)	125146
Cartridge -10 (14 oz each)	125148

From the food you and your animals eat to the fuels you require, CPM plays an important role in building a better world. Our experienced team and family of trusted brands are working together to make our planet a better place to live.
