

Convert Biomass into Sustainable Energy

ONECPM.COM

DESIGNED FOR 24/7 OPERATION

GEAR TRANSMISSION

COMPACT, STRONG & ROBUST

AS THE WORLD'S LARGEST MANUFACTURER OF PELLET MILLS

CPM has led the way in developing specialized pellet mills and dies to produce wood pellets both efficiently and economically.

The Pellet Mills are built to operate 24 hours a day under tough running conditions to match the output requirements.

30 years of experience and more than 600 biomass pellet mills in operation around the globe have proved the one piece gearbox to be the most robust, reliable and compact transmission principle.

With the lowest operating costs.

Safe and easy to operate

***) Nett surface

ADVANTAGES

- Lowest operating costs
- Easy to operate
- Combined with latest technology, such as the Oil Lubricated Rollers
- Strong, robust design
- Lowest maintenance costs
- Extra low energy consumption
- Compact and space-saving
- Most consistent quality of production

PELLET MILL

From the food you eat to the fuels you require, CPM plays an important role in building a better world. Our experienced team and family of trusted brands are working together to make our planet a better place to live.
